Allowable Subject Matter

Claims 1-4 and 6-9 are allowed.

The following is an examiner's statement of reasons for allowance: the prior art of record does not disclose a process, as called for in claim 1, of oligomerization C6 olefins which is run at a conversion of from 10 to 30% weight based on a throughput of the reaction mixture through the catalyst in a single pass. As discussed in the specification and the experimental report, applicants actually can prove that the lifetime of the catalyst can be made longer by operating the process at a low conversion.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
